BUILD \$22,000 HOME REFORMATION ABOUT JULY Coming of Steam Cars Will Be Welconed by Those Who Wait for Mail

Special to The World DRUMRIGHT, June 18.—Reform Former Congressman Bird S Mediatre yesterday was issued a building persual for a residence on Maple Ridge that is to cost \$22,000.

This is one of the largest individual residence permits issued by the building inspector this season.

Mr McGoire has already started work on the residence, which is situated in one of the fashionable new admittable to the city.

"I started out to build a some to dost \$10,000" said Mr. McGoire, but as I get to working over the plans, looking at the future of Tulsa, and putting in little things here and there, I found that my estimate was poor, so I have decided to increase the amount to \$22,000."

Special to The World DRUMRICHIT, June 18.—Reformation will some about in the oil field mail service on or about July I. A local long line up at the general delivery window every night now, long before the team of tired borses pass Euchee creek with the "overland mail." One mail every day (nearly), all four harses can pull, arrives at the back discretification for the postoffice in Drumright at 6 octock p. m. if nothing harness. The postoffice becomes a second-class office on July I. A local organization of postoffice cierks has been organized with seven charter members. The organization is aftillated with the U. N. A. P. O. C. and the eight-hour law becomes effective.

CLIMBED TREE TO SEE PRIZE FIGHT: FELL, BROKE BACK Special to The World.

Steel Arrives for Stills.

PLMETA Okla, June 14. The could for the suits for the Founda facty has acress in the Santa Fo

PEMETA, Okla., June 18.— Sam Clements, a tool dresser, has a broken back, a broken leg and a broken as the result of fall-ing from a cottonwood tree yes-terday. He had climbed a tree in order that he might have a free seat for a prize fight, held south of Pemeta. He became inter-ested in the bout, lost his grip on a limb and fell to the ground, Clements was taken to a hospital in Oklahoma City last night.

ONE reason people prefer Tulsa is that so few doctors are able to make a living here.

Seven years ago fifty-three had offices in Tulsa-popu lation 12,000; today only twenty-six more are here, yet Talsa is three times as large as it was then. This city's death rate is lower than any other of its class in the entire middle west. Where doctors starve for lack of patients, the rest of us should live to ripe old age.

Along money-making lines, however, the figures, by com-

parison, tell another story of Tulsa's chief industry. In 1908, when Glenn pool had the world beaten, 126 oil and gas operators made headquarters in Tulsa. Today feur times that number, or, to be exact, 497 profileing oil companies have offices in Tulsa. Seven years ago most members of the oil fraternity lived at hotels; now the majority have their families in Tulsa. Hundreds have built homes of their

Others who have not yet done so, are planning to build

MAPLE RIDGE

an unusually attractive section of the city, where values are certain to climb very rapidly.

Here \$15 to \$25 a foot buys a beautiful site. There is nothing like it elsewhere in Tulsa. It is but five minutes south of the postoffice, up on the high elevation two blocks east of Boston and Eighteenth. Maple Ridge has all street improvements, and every purchaser is protected by
